AEGIS SYSTEMS ENGINEERING & TECHNOLOGY

SYSTEMS ENGINEERING | DATA ANALYTICS (AI/ML) | AGILE DEVELOPMENT | CYBER SECURITY
GEOSPATIAL | PROGRAM MANAGEMENT | CLOUD COMPUTING | FINANCIAL MANAGEMENT

A DIFFERENT APPROACH TO SOLUTIONS

ASET Partners employs the rigor and holistic principles of systems engineering across a wide range of disciplines, including information technology, cyber security, enterprise architecture, program management, financial management, and more. ASET applies its domain experience and expertise to each problem's unique requirements and dynamic environment to identify, design, produce and implement viable solutions for our clients. The result… comprehensive strategies and effective real-world solutions with high-impact results.

Gartner studies show that 65% of Government IT projects fail…

The ASET mission is to alter those results and drastically change our client's expectations... one program at a time. We believe that the bar for performance can be raised. Our goal is to demonstrate this to our clients and partners by combining innovative thinking, superior effort, integrity and ingenuity with state-of-the-art methods and techniques to maximize impact and success.

ASET has received numerous client, commercial, and industry awards for innovation, impact, and success. Among them a Dept of Homeland Security (DHS) Innovation award for agile management and a CEO Award from a technology vendor for technology and process optimization and modernization.

541990 All Other Professional, Scientific, and Technical Services

Visit us online at **www.ASETPartners.com** to learn more about our capabilities and clients.

At ASET Partners, we engage our government partners, combining large-business experience with small-business efficiency and ingenuity, deploying optimal resources and expertise to implement the best solutions to our nation's most challenging problems. ASET Partners is more than an IT or management consulting firm, we're a comprehensive Systems Engineering Lifecycle services firm. We provide exemplary engineering and technical services along with management and professional services. ASET tackles problems starting with solution conceptualization to development and implementation through operations and maintenance. Wrapped around this solutions lifecycle are strategic planning, communications and outreach, as well as, training services to ensure total comprehensive success. Our team also approaches problems from multiple angles, assessing not only the technology components but the political, economic and operational aspects of every project to ensure the best, high-impact solutions for all our clients. Our goal is not only to design, implement and deploy the best solutions for our client's problems, but also to ensure those solutions can be fielded with maximum success and the highest impact.
